DR. HENDRICK'S MONUMENT OF HONOR. AS A SURGEON.

To begin with, Dr. Hendrick is well prepared for his profession, having had a liberal education and the regular fitting that is only got in the best medical colleges and hospitals. And during the long years of professional life he has had as good luck as any other surgeon, in amputating arms and legs, hands, fingers, feet and toes; in excising tumors, cancers, and various vicious growths; in adjusting fractures of bones and dislocations of joints; in operating on all the various forms of piles and rectal diseases, and in treating those abnormal conditions peculiar to the female sex. In every direction there is a vast amount of good work that shows for itself; hence any amount of evasions he can avail himself of, and as far as surgical instruments are concerned, he has as choice an array of the best of what is made, as may be found in any other office in the country. In the future as in the past, as good a job in surgery as the case may admit of, may be reasonably expected of Dr. Hendrick, and he always has his share of that kind of work.

Special attention given to diseases of the Lungs, Liver and Kidneys, Private Diseases, Piles, Female Complaints, etc., all Chronic Diseases.
